Regarding Data Collection, there are simple processes that we utilize. At any time, you may choose to register to volunteer, or register to receive additional information or services from us. When you register, we request personal information about you, such as your name, email address and/or telephone number, and we may ask for other information to enable us to provide more relevant, personalized service to you. The information you provide may be stored in our databases. We limit our requests for personal information to information we believe is minimally necessary to achieve our stated collection purposes. We may also supplement your profile information with publicly available data, such as zip codes and other public information. We do not collect personally identifiable information from you, unless you provide it to us voluntarily and knowingly. If you make a secure donation, complete a secure online form, register for an event or register for our newsletter, for example, we may collect your name, mailing address, phone number, email address, and/or credit card information. If you provide personal information, we may enter that information into our volunteer, donor, and/or accounting databases. Our entire website is secure, and you will note the letter "s" in the "https" indicator in our web address on every page of our website. You will also see the small padlock before our website address as an added layer of confidence. This is an above average effort to create a secure environment for all AniMeals website visitors. When processing financial transactions, we use high-grade encryption and security protocols (Secure Socket Layer-SSL). All communications initiated by the donation form are transmitted via Secure Sockets Layer (SSL). The SSL protocol is the industry standard best method for creating an encrypted, secure connection between your web browser and a web server. This industry standard best security protocol makes it difficult for anyone to intercept the information you send us. One-time and/or recurring fees are processed through a credit card processing company. This company does not retain, share, store or use personally identifiable information for any secondary purposes.
